

Brijesh Kunwar

MERN STACK DEVELOPER

Noida, India | +91 7830372716 | brijeshkunwar85@gmail.com | [linkedin.com/in/brijeshkunwar85](https://www.linkedin.com/in/brijeshkunwar85) | github.com/Darckie | darckie.github.io/portfolio

SUMMARY

MERN Stack Developer with 2.6 years of experience building scalable, production-grade web applications across the full stack using React.js, Node.js, Express.js, and MySQL. Skilled in architecting RESTful APIs, implementing secure authentication with JWT and encryption, integrating payment gateways, and building real-time communication systems using WebSocket. Experienced with AI and voice API integrations including OpenAI, ElevenLabs TTS/STT, and call transcription pipelines. Passionate about clean architecture, performance optimization, and end-to-end product delivery.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux, Zustand, Context API, React Hook Form, Zod, Recharts, Shadcn UI, Material UI, Vite
Backend:	Node.js, Express.js, RESTful APIs, WebSocket, Socket.IO, Webhooks, CSRF protection, Middleware design
Database:	MySQL, Sequelize ORM, query optimization, relational schema design
Auth & Security:	JWT, Bcrypt, Crypto.js, role-based access control (RBAC), session management, NextAuth
Integrations:	OpenAI API, ElevenLabs API (TTS/STT), AssemblyAI (transcription), Razorpay, Gallabox API, Infobip API
Tools:	Git, GitHub, Postman, Axios, React Query, Webpack, Vercel, Netlify, CI/CD, Jest, Agile/Scrum

EXPERIENCE

Technical Offerings & System Solutions Pvt Ltd	Oct 2023 – Present
<i>MERN Stack Developer</i>	
Intern: Oct 2023 – Apr 2024 · Full-Time: Apr 2024 – Present	
- Architected 15+ full-stack dashboards and CRM tools using React.js, Node.js, and MySQL — reduced manual reporting time by 40% through end-to-end workflow automation - Designed and optimized RESTful APIs with query optimization and response caching — cut average API latency by 30% - Implemented secure authentication using JWT, Bcrypt, and Crypto.js with role-based access control across multiple production applications - Integrated Razorpay payment gateway including webhook handling, transaction retries, and payment failure recovery flows - Built call transcription pipelines using ElevenLabs and AssemblyAI — enabling real-time voice-to-text processing for client applications - Conducted code reviews, mentored junior developers, and drove modular full-stack architecture decisions in an agile team environment	

PROJECTS

WhatsApp Chat Management Portal	Aug 2025 – Jan 2026
<i>MERN Stack Developer · React.js, Node.js, Express.js, MySQL, WebSocket, Gallabox API, Infobip API</i> darckibeta0007.netlify.app	
- Built end-to-end WhatsApp chat platform — React frontend, Node.js/Express backend, MySQL — enabling agents to handle 1,000+ daily conversations with 30% improved response efficiency - Engineered webhook-based real-time message ingestion with sent/delivered/read status tracking — dropped message loss to near zero via secure retry endpoints - Designed RESTful APIs for message storage, agent assignment, chat history, and file attachments; built analytics dashboard tracking 10+ agent KPIs	
Maharashtra Cyber Complaints Portal	Aug 2024 – Jan 2025
<i>MERN Stack Developer · React.js, Node.js, MySQL, REST APIs, Data Visualization</i> darckie.github.io/ComplaintPortal	
- Delivered government-deployed full-stack cyber fraud tracking system used by 10+ cyber cells across Maharashtra, processing 500+ complaints monthly - Built backend data pipelines and REST APIs to ingest, categorize, and serve real-time fraud data across 5+ crime categories — reducing analyst triage time by 30% - Developed interactive data visualization dashboards that helped analysts identify fraud patterns 50% faster	
Mortgage Auction Platform	Nov 2025 – Present
<i>Frontend Developer · Next.js, TypeScript, React Query, NextAuth, Zustand, OpenAI API</i> nandalanfinance.netlify.app	
- Built 6 role-based dashboards for Agents, Lenders, Brokers, Borrowers, Admins, and Supervisors with advanced data tables handling 100,000+ loan records — no performance lag - Integrated NextAuth, JWT, and CSRF protection; used OpenAI API for AI-driven loan matching — reduced form submission errors by 35%	
Clixxo – IoT Gateway Management Server	Jun 2023 – Sep 2023
<i>Backend Developer · Node.js, Express.js, REST APIs, JWT, RBAC, MySQL</i>	
- Architected scalable backend platform managing 200+ IoT devices with device configuration, real-time logging, and role-based access control - Optimized API response time by 35% through query tuning and middleware restructuring — improved stability for large-scale deployments	

EDUCATION

Master of Computer Applications (MCA)	Aug 2021 – Jun 2023
H.N.B. Garhwal University, Srinagar	GPA: 7.5 / 10
Bachelor of Science (BSc)	Aug 2017 – Jun 2021
H.N.B. Garhwal University, Srinagar	GPA: 6.4 / 10
Class XII · GIC Kansuwa	72%
